

Лабораторная работа №12

Настройки сети в Linux

Руслан Алиев

22 ноября 2025

Российский университет дружбы народов, Москва, Россия

Цель работы

Получение навыков настройки сетевых параметров системы в Linux с использованием инструментов **ip**, **nmcli**, **nmtui** и **NetworkManager**.

Ход выполнения работы

Проверка конфигурации сети

```
raliev@raliev:~$ su
Password:

Итоги работы

В ходе лабораторной работы были освоены методы настройки сети в Linux.

Рассмотрены способы конфигурирования сетевых параметров с помощью **ip**, **nmcli** и **nmtui**, а также управление профилями **NetworkManager**.

Изучены процедуры добавления статических и динамических IP-адресов, настройки DNS и шлюзов, а также проверка состояния соединений и маршрутов.
